**Year 9**

Combined and separate  
GCSE sciences

**Year 10**

Combined and separate  
GCSE sciences

**Year 11 – Examinations**

# What are our expectations?

Students come to science equipped to learn (pens, pencils, rulers, calculators)

Students come to science with an open mind and a growth mindset – science is hard but they will get it with determination and perseverance

Students complete all homework and have a desire to succeed

# How you can help:

**Help them to be organised for assessments**

**Check class charts for homework**

**Check they have a pen and a calculator.**

**Sit down with them for 10 minutes (only), once a week and help test them on their knowledge.**

# NT Science support

**Emails** with updates of what the students are studying and any upcoming important assessments dates.

**Afterschool revision** – This is not compulsory. We want students to come to us and take responsibility for their learning. Revision will be on Thursday nights. It is important that students come to us knowing what they want help with.

**Shared Drive** – This will have a host of revision resources that is available to everyone to use at any time.

# O365 Student Shared

- **Accessing resources on the One Drive:**
- **There will be a number of resources available for students to download and use for homeworks and assessments on the onedrive:**
  - **NT website**
  - **Click the office365 icon at the top of the page**
  - **Click the student shared365 link on the quick links box**
  - **Click science**
  - **Click public**
  - **Click year 11**
