#### 4) Session choices

Please read through the attached timetable, and panel and workshop descriptions. In the morning you will be able to choose between a morning workshop or panel Q and A sessions. In the afternoon you will have the chance to choose between 2 virtual fieldtrips, and to do 2 workshops from a fantastic selection of activities.

All talks and workshop materials will be available to watch or download prior to the event from Friday 3<sup>rd</sup> July. This will enable you to watch the content at your leisure and join in the workshops and panels having completed the viewing and activities. You will then be able to ask questions and discuss the sessions with our brilliant speakers, panellists and workshop leaders.

In order to allocate the sessions and plan your timetable **please read the attached descriptions** of all the sessions and list your choices as detailed below:

**Morning session:** Please rank the order you would like to do these options. Sessions will be allocated first come first served, we will endeavour to try and allocate everyone's choices where we can.

I would like to do these activities in the following order (please rank 1-3)

- Peruvian glaciers and water resources workshop
- Volcanoes, landslides, tsunamis, why look at one? Let's do them all!
- Q and A panel sessions: 'Applying for University' and 'Dealing with changes, challenges and opportunities'

**Afternoon sessions:** Please choose which fieldtrip you would like to do.

I would like to do:

- Siccar Point (Scotland): the "birthplace" of modern geology
- Sandway Cellar, Kingsand-Cawsand, Cornwall: An introduction to geological field techniques

For the workshops please list your top 4 choices below. Again these workshops will be allocated first come first served and we will endeavour to try and allocate everyone's choices first where we can.

- I would like to do the workshops in the following order:

Choice1: \_\_\_\_\_ Choice 2: \_\_\_\_\_

Choice 3: \_\_\_\_\_ Choice 4: \_\_\_\_\_

- Ice Age: A geomorphic scavenger hunt
- Roving with Rosalind
- Investigating the earthquake machine: how can everyday objects help us predict earthquake behaviour
- Understanding volcanoes from dormancy to eruption
- Using corals to determine changes in Ocean temperature
- The mysteries of mud: exploring sediment cores for records of natural disasters
