

Revision timetable

Remember to keep SORTing your class notes and using your revision pack at home to practice exam questions. You have 4 learning objectives to revise for the exam:

Date		
Learning outcome 1 - Understand how to support individuals to maintain their rights.		
10/12	1 Rights of Individuals	Identify core rights of individuals. Develop a definition for each right
12/12	2 Importance of rights	importance of rights for people who use health care services identify the positive consequences for people who use the services if rights are implemented effectively.
14/12	3 Supporting individuals to maintain their rights	How care workers can support individuals to maintain their rights
Learning outcome 2 - Understand the importance of the values of care and how they are applied.		
16/12	1 Values of care in health and social care	Three values of care. Revise each value of care. A definition of the value, settings in which the value is applied, two examples of how the value could be applied in each setting (health, social care and early years).
18/12	2 Early years values of care	The early years care values. Identify examples of how each early years care value is implemented in at least two care settings.
20/12	3 Effects on people who use the service if values of care are not applied	Identify the consequences for individuals if care values are not applied. Refer to examples where individuals refused to have blood transfusions on religious grounds. Explain which care values were ignored and the effects on the individual because of this negligence.
Learning outcome 3 - Understand how legislation impacts on care settings.		
21/12	1. Legislation	Who does legislation apply to?
22/12	2 Key aspects of legislation	Review five legislations and the key aspects
23/12	3 Impact of legislation	brainstorm the impact of each piece of legislation on the following three categories of people, people who use the service, care practitioners and service providers
Learning outcome 4 - Understand how personal hygiene, safety and security measures protect individuals		
27/12	1 Personal hygiene	Define the term and identifying strategies to enhance personal hygiene. Explain the importance
28/12	2 Safety procedures	Outline the procedures and their importance. Safety procedures such as, emergency procedures, equipment considerations and moving and handling techniques.
29/12	3 Security measures	Identify the security procedures that should be undertaken in a nursery and care home setting. The learners could identify commonalities and suggest why these measures are important.
30/12	4 Protecting individuals	Identify how individuals are protected because of the procedures and security measures.
